

# MISUMI SPOTLIGHT

NTN is a leading manufacturer of a comprehensive range of ball and roller bearings. NTN engineers and manufactures products for a diverse range of demanding applications across a variety of industrial market segments. NTN is recognized for having some of the most stringent quality standards in the industry with solutions focused on productivity, reliability and efficiency, and the engineering training and support to back them up.

## New Product Expansion

### NTN Single Point Lubricators

The Single Point Lubricator tools help maintenance professionals safely and automatically schedule lubrication of bearings or chains. Keep your operation on schedule, save time, increase productivity, prevent avoidable injuries, and ensure regular maintenance is done on time every time.

**Easy installation** ■ **Constant & reliable distribution** ■ **Reduce safety hazards**

### Sentinel Series Maintenance-Free Washdown Bearings

A premium line of stainless-steel bearings and bearing units featuring food-grade lubrication with covers. Sentinel is designed for a maintenance-free, washdown-resistant product line in food and beverage applications.

**100% Stainless Steel bearings** ■ **Food-grade solid lubricant** ■ **FDA approved**

### SmartTEMP Induction Heater

This new generation of heaters works to expertly manage all needs and requirements to install the parts safely and effectively. The induction heater series includes options for two thermal couples as well as a data export.

**Uniformly heats** ■ **Innovative touch screen** ■ **Simplified maintenance and monitoring**
